

trl/trainer/sft_config.py

```
68 - packing_strategy (`str`, *optional*, defaults
69 -                    to `"ffd"`):
70 - Strategy for packing sequences. Can be either
71 -                  `"ffd"` (first-fit decreasing, default),
72 -                   or `"wrapped"`.
```

```
68 + packing_strategy (`str`, *optional*, defaults to `"bfd"`):
69 + Strategy for packing sequences. Can be either
70 +                   `"bfd"` (best-fit decreasing, default),
71 +                    or `"wrapped"`.
```

```
    ...
```

```
74 - batch structure. When packing is enabled with
75 - trategy `"ffd"`, padding-free is enabled,
76 - regardless of the value of this parameter.
```

```
74 + batch structure. When packing is enabled with
75 + trategy `"bfd"`, padding-free is enabled,
76 + regardless of the value of this parameter.
